"Having someone take the time to talk with me, one-on-one, about parenting makes me feel useful, needed and very necessary!" – Program Participant

How does it work?

Parents as Teachers is a free parent education and family support program. Families can participate through home visits, video visits, and/or phone visits.

✘ Personal visits

Since this is your child and your family, you set the agenda for each personal visit. Your home visitor is there to provide well-researched information to help you make good parenting decisions... and to provide concrete support for you in times of need.

✘ Groups

Group connections create a network for you and other parents to learn from and support each other, and grow together as parents.

✘ Screenings

Regular screenings during your visits will make sure your child is healthy, safe, and developing on track.

✘ Resources

Need more help or a special resource? Your home visitor will make the introduction and connect you.

Together on each visit, we'll:

- ✘ Look at your child's development and talk about the parenting challenges you face right now.
- ✘ Think about family dynamics impacting your child's development, your parenting values and decisions.
- ✘ Build strong protective factors to keep you, your child and your family healthy, strong and resilient.
