

May 1, 2025

Oki and hello,

We are reaching out to residents of the Garry Station and Crossings neighbourhoods to share information about upcoming changes that will impact traffic around your home.

As your neighbourhood continues to grow and develop, the City of Lethbridge has both short and long-term plans for effective traffic control. We are also committed to continually monitoring and modifying these plans as needed.

What is changing?

Please see the map on the back of this letter for locations of these upcoming changes.

- May 2025
 - Start of construction for the Piers residential development
 - Start of construction for the Holy Spirit Catholic School Division's new elementary school near the intersection of Caledonia Blvd. W. at Abitibi Rd. W.
- September 2025
 - Opening of Lethbridge School Division's new West Coulee Station Elementary School in Garry Station.
- September 2026
 - Opening of new Holy Spirit Catholic School Division's new elementary school

How will this impact traffic?

A traffic assessment study has been recently completed in the areas of Halifax Rd. W. and Abitibi Rd. W. and Abitibi Rd. W. and Caledonia Blvd. W. These studies show traffic is currently well within the road capacity. As these residential neighbourhoods continue to develop, and the new schools open, we do anticipate an increase in traffic congestion. We will continue to monitor and mitigate these areas as development continues.

What will be done to minimize impact?

Ahead of these changes, all-way stops and speed limit reductions along Abitibi Rd., some traffic controls will be put in place as additional safety measures. We expect these traffic controls to be installed in May 2025 so motorists, pedestrians and cyclists can become familiar with the changes well before the West Coulee Station Elementary School opens in September 2025.

What if I have questions or concerns?

We welcome your feedback. Please call or chat online with our customer service specialists at 311. They are available from 8 a.m. to 4:30 p.m. Mon-Fri. (see map on reverse)
